

My role model

My role model is my mum. Her name is Zurida. Her face is oval. Her hair is short and curly. Her eyes are brown. Her nose is straight.

She was born in 1965 in Adige-Habl'. In 1972 went to school. Soon her parents arrived to Erkin-Shahar. So

studied at school in Erkin-Shahar and then she left to Pytigorsk. There she became a student off Teachers Training Institute of foreign languages.

After it my mother became a teacher and worked at school about 10 years.

Since her childhood her hobby was a photo camera and making photos. Now she works like a photograph and makes excellent video montage with our dad.

She is ambitious, intelligent and clever. In my opinion my mother is very beautiful. I think the people respect her. I love my mother very much.
