

- 
- There is at the north legend , once deer hunters frightened , fled the green Mari , and one landed in a swampy deep " small window " . When using the felled branches hunters dragged the unfortunate animal , they saw that deer legs and belly smeared with black oily liquid. Young Evenk , who noted that the skin in these places burst and oozing blood, exclaimed: " Okha " that Evenki means " bad" , "evil " , " lean." And rooted to the spot is a misnomer .
  - Distance from Yuzhno- Sakhalinsk to Ohi 1062 kilometers. Today the area is home to 25 800 people , of which about three thousand villages .
  - The main city axis - Lenin Street with an abundance of life and youth evening stroll . Roads in slightly tricky form. There are no traffic jams in the city center or on the highways , which are not.
  - In large cities, usually every building has its own characteristics and traits , but the local home seems either born in the Soviet era , or yesterday, and very similar to each other , in the center of the facades of houses are decent, and as usual on the outskirts of ...

Backbone of the economy of the city is oil and gas complex , constituting almost 70 percent of the production base. His whole story is connected with the development of this land. Ohintsy - the original founders of the shelf. In the second half of the 19th century, the famous Russian industrialist Gregory Zotov came here and drilled two wells , then there were the first houses . In 1938 the village was given the status of the city. For sports there are many possibilities . City brand - the famous ski holiday , which attracts athletes from all over the Far East. For two consecutive years, the festival of folk art "Stars northern capital."
