

PROJECT

Help sick people

Petrenko Diana Class 5^a Școala nr 7

Our class visited the house of veterans. Elderly and lonely people live there. Many of them are ill, some do not even get up from a bed. We brought to them gifts made on the lesson of labour. Songs sang, read verses.

Then we drank tea and listened interesting histories from life of elderly people. We merrily spent time. And I understood that good more important there is on earth
