A hand-drawn illustration of Earth in space. The Earth is depicted as a circle with a dark blue outline. The interior is filled with green and yellowish-green brushstrokes, representing land and vegetation. The background is a textured purple and pinkish-purple, speckled with small yellow and orange dots, suggesting a starry sky or distant galaxies. The Russian word «МЕЧТА» (Dream) is written across the center of the Earth in a stylized, blue, outlined font.
