# PERSONAL GUIDE TO TRAVEL LIGHT

*St. Petersburg edition*

Hi!

Today I'd like to be your personal travel guide. My main aim is to make your journey to St. Petersburg productive and enjoyable. The following tips are based on my summer vacation experience.

*the city of your dreams*

By Arina Kirillova

## COMMON TIPS

→ have a copy of your documents with you. In case of losing your original documents, copies facilitate your identity

→ don't put all your "eggs" in the same basket. Avoid carrying too much cash and store it in various "safe" places

→ in crowded places bring with you as little as possible

→ make a check-list of things that you need based on a local weather forecast, especially in Petersburg, where you need at least one umbrella

## ATTRACTIONS

**I strongly recommend you to make a wish-list of places to visit and then do a schedule:**

→ visit places that located in the same area, fortunately most of tourists destinations are near by Nevsky Prospect

→ make a 'Hermitage Day'

→ find some impressive temporary events

→ study the subway lines, they are important helpers for making the way to destination

→ the roof walk is a famous activity in Petersburg, so if weather is pleasant, find a company that will help you enjoy the stunning views

Some pieces of art which caught my eye

## ATTENTION

Don't forget to bring with you the student card, because students from all over the country can visit most of the museums for free. For example, I was a deadhead in twenty museums.
