I've chosen photo number 3. I would like to tell you more about this picture. In my family we have a tradition to spend winter holidays abroad. That is why we'd decided to rent a house in a foreign country and spend 2 unforgettable weeks together. We went there at the end of December. Such trips make me forget about daily routine which eventually becomes highly irritating. I took the picture when we had just come to the village where the rented house was situated. The village is very old. In the background of the photo you can see a giant snowman. It was made by the locals and they seemed to be very proud of that. My mom is making picture of my dad and two little brothers. I keep the photo in my album, because I am fond of this giant snowman. I think that it's a very nice shot. I showed the picture to you because I guess you had never seen anything like it before. I hope that we will return to that place next year together.

Eventually I crossed that bridge too and was very proud of myself. I showed the photo to you because I bet that you had never seen anything like this before. I hope that you liked the picture. Most of the people dream to become rich and succesful but they mostly care about welfare of their family. That is the priority number one for them. They have their own specific mentality. I wanted to see how they live. In the foreground of the photo local citizens are going to the river. In the background you can see giant mountains. I keep the photo in my album because camels look very beautiful. Also it is the only picture from my trip to Egypt. I've chosen photo number 1. Listen, do you know that I like taking pictures? My summer trip was remarkable. I'm thankful to my parents who forced me to go there. I'm not a very active person so every trip for me is a struggle. Anyway, we spent 2 outstanding weeks in the wild nature and I'd learned many curious features about surviving. I took the photo on the first day of our trip when we were underwater. The water was very warm. In the picture my girlfriend is swimming toward the giant turtle which we incidentally met. In the background of the picture there are other divers who are swimming toward the surface. Then we dove even deeper but the instructor made a sign and we had to go on the surface. I keep the photo in my album because the size of that underwater creature impressed me. My parents were excited, too. I decided to show the picture to you because this shot is fantastic. Also I wanted to invite you to go there with me next summer. I hope you liked the picture.

I don't see lots of beautiful things in my everyday life because I'm working in the office and most of the time I spend sitting in front of the computer. That is why I don't miss an opportunity to move to another country and spend a couple of weeks in wild nature. I took the photo at the top of the mountain on the first day of our trip to Canada. The weather was fantastic there. The water is absolutely pure and spotless. In the picture people are standing next to the lake. In the background there are giant mountains. On the left of the photo a tourist is making a shot. He seems to be concentrated. Other people are just standing and enjoying the view. I keep the photo in my album because I love to look at the picture lying at home on the couch. Also the view is really fantastic. I decided to show the picture to you because I thought that you would like this shot. Also I wanted to invite you to go on that place next summer. Did you like my picture? I've chosen photo number 1. I would like to tell you more about this picture. I took the photo on the first day of my trip when I visited an abandoned village. This place is very ancient. In the foreground of the picture you can see four boats. On the left of the picture a huge house is situated. In the background you can see a lot of trees. I didn't even know about the existence of that place. It was very strange experience. I was even a little bit scared because houses seemed to be nice but you wouldn't find any person nearby. First thought that came to my mind — this place was abandoned because of the natural disaster. Eventually I explored the whole area and even spent a night there. I keep the photo in my album because I hope to find more information about the place. Returning to the local city I asked about that unknown village but nobody knew about it. I decided to show the photo to you because you told me many times that you love solving mysteries. Also I thought that shot is fantastic and you definitely must see it. In the background of the photo you can see three glorious buildings and a big and spacious square. A lot of people are walking there. They seemed to be very busy. I guess most of them are late for work. On the right of the picture there are spectacular flowers. That square is my favorite part of the town. I keep the photo in my album because the view seems incredible to me. Also this is the only picture from my trip. I decided to show it to you because you always had an interest to foreign cultures. I've chosen photo number 3. I would like to tell you more about this picture. I visited Egypt for the first time and I was amazed by the greatness of that country. I read a lot about their culture and, of course, pyramids which I admire the most. That is why on the first day of my trip I went straight to them. I took the photo when I saw them for the first time. It was unbelievable. I saw lots of pictures but you should really see it with your own eyes. I still don't understand how they managed to build them hundreds of years ago without any modern technologies. But lots of people died building them and it's the well known fact. In the middle of the picture three giant pyramids are situated. In the background you can see a grey gloomy sky. The weather seems to be murky and dull. I keep the photo in my album because the pyramids are the greatest constructions that humans have ever built and I am very proud of the shot. The quality is fantastic. I've chosen photo number 2. I would like to tell you more about this picture. I like special occasions and the last of them was the wedding of my brother. I was very happy about him. It was a very important day in his life and I was proud to share it with him. I made the photo in the afternoon in our local park. The weather was nice. In the foreground of the photo my brother is standing with his bride. They are smiling. In the background there are many trees and the sky is perfectly clear. A bride and my brother are holding birds in their hands. They seem to be very happy. I keep the photo in my album because I wanted to memorize the wedding of my brother. Also I think that the shot is really great. I decided to show the picture to you because you wanted to see a bride of my brother. Also I just wanted to share my feelings. I hope you liked my picture.

I've chosen photo number 1. Do you know that I like taking pictures? Me and my friends like to spend time together. Moreover, I always invite my friends to my house where we watch TV and play computer games. I took the photo two days ago in my apartment. On the left you can see my little brother, on the right you can see my best friend. They are shaking hands. Also both of them are having fun. That is why they are smiling. In the background of the picture there is a giant aquarium. It belongs to my little brother. I keep the photo in my album because it is a really nice shot. Also this picture reminds me of the most valuable and precious people in my life. I decided to show the picture to you because I consider it as one of my best shots. Also I thought that maybe you would like to be a guest in my apartment. I hope you liked my picture.

I've chosen photo number one. I would like to tell you more about this picture. I believe that sport helps us to stay strong and positive. The photo was taken in the local park at the start of the day. In the middle of the picture you can see my sister running. She is smiling. In the background of the picture there are many trees and bushes. The weather is fantastic. I keep the photo in my album because it's one of my best shots. Also my sister asked me to save this picture. I decided to show the photo to you because I thought you would be interested to see how my family spends early mornings. I hope that me and my sister will return tomorrow to that park.
